Allowable Subject Matter

1. Claims 1-32 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art taken singly or in combination does not teach or suggest, a chipset system among other things, comprising a queue mechanism comprising a first functional unit block (FUB), coupled to the graphics accelerator *at a first physical partition on the chipset die*, to perform a first set of functions for the queue mechanism, and a second FUB, coupled to the memory controller *at a second physical partition on the chipset die*, to perform a second set of functions for the queue mechanism.

The closest prior art, Gulick et al. (U.S. Patent No. 6,523,019) teaches a chipset including a graphics accelerator, a memory controller, and a queue mechanism having first FUB and second FUB performing first and second sets of functions.

However, reference Gulick et al. does not teach the first and second FUBs are at a first and second physical partitions on the chipset die.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
